Dear H. V.

Where are you at? as the Baltimore people say. Mrs. O. said at lunch, why have we not seen Dr. Ogden for so long. Write him at once & ask why he could not spend a couple of weeks here. We should be so glad to have you & I know you would pick up a great deal. Our new Clin laboratory is a great delight & from Fatcher, the man in charge, you would get all sorts of nice micro-chemical tips.

Love to your mother and sisters.

Yours,

W. Osler.
