Sept. 16th, 1898.

Dear Dr. Lyon:

Let me know when you are going to Buffalo, and I will send you letters to Stockton and Park and to several of my friends. I asked for you there the other day, thinking perhaps you had already gone. I think your prospects there should be very good. It is a large and growing city, and the recent fusion of the two schools will be particularly advantageous for the profession.

Sincerely yours,

Wm Osler
