My dear Willie

so in MS.
Thanks for your last note, truly I am very thankful that you
in such flourishing condition of health - The aged Parent had a bright
happy B Day yesterday, nearly all the relatives called and there were
many loving gifts of Plants and cut flowers the Tel from Baltimore f
family was accepted as a welcome call - the usual children's Party was
given up principally on account of Jean's Whooping Cough, she has it
very favourably but is shut out from us for a time and we miss her.
Edward I'm glad to say is free from more than slight twinges of the
enemy. We shall be looking for Jack today to hear all about Revere
and soon we shall hope to see you to brighten up a day or two in Xmas
week. We have bright weather .

With thanks for all good wishes and very much love

I am, dear Willie

Your loving Mother

E. OSLER.
