Dear Mullin

I was very glad to have your letter today - to hear the more cheerful news of your breadbasket. Do take it easy & make the young Doctor do most of the work. I should have answered Mrs Mullins letter which I was very glad to have, but I have been very much driven for the past ten days. Tell her I will write before long. I have been enjoying Wiltens paper on ~~Chancres~~. My nephew W. W. Francis who lives with me is a chancerean & he also was interested in it

With love to all at home

Yours sincerely
