(To Dr. Lawrason Brown, Saranac Lake)

No.1, W. Franklin Street
Baltimore, Feb. 24th, 1899,

Dear Brown:-

Many thanks for your kind note. I have written to my nephew and told him to lock you up. He has a local lesion below the left vocal cord, and a few bacilli in the expectoration, no fever, and we can find no trouble in the lung. He is very husky, and the rest for his voice will be an important matter. He would be better, I think, at first in the Sanitarium, as he is a careless chap about himself, and needs to be taught how to take care of himself. Subsequently I think he would be better outside.

With kind regards,

Sincerely yours,
W^m Osler
