1 WEST FRANKLIN ST.

Dear Camac

I am very sorry to hear of the death of your father. From what you say of your relations, it must be a loss of exceptional severity. But it must have been a great satisfaction to him to feel that you were so comfortably settled in life and doing so well.

I have had that horrid disease the influenza for the first time. I am better now but rather used up. Revere & Mrs. Osler keep well. I hope we may see you in the spring.

With sincere regards

Yours ever

WM. OSLER.
