Dr. H. C. Shattuck Junr.

May 30^(?) 19

1 West Franklin St.

Dear Shattuck

[no date]

[Association American Phys. May 1-3]

(I was very sorry to miss the meeting) but it was unavoidable. My brother has had serious attacks - Myocardial I fear. He was better when I left him on Thursday. I shall not go North before we sail, June 16th. Mrs O & Ike go to Mrs Reveres for ten days but I have the Examinations and many things to clean up before leaving. We shall spend the summer in England & have taken again the home which we had last year at Swanage on the Dorset coast - a delightfully quiet nook. I am glad to hear of your general and local robustness. Regards to all of yours.

Yours ever

Wm Osler.
