To John H. Musser

Dear Musser

I was so uneasy about my bro. that I came out for a week. He has been improving since your visit and is in every way better - pulse 48 - 52 & the liver is less congested. Poor fellow I think the outlook is very bad. The attack he had in Phila was nearly fatal - syncope with pulse to 18 or 12. They all appreciated your visit very much & it encouraged my brother greatly. I shall return by the St Paul on Wednesday if he keeps all right tomorrow. We sail sept. 8th. Mrs Osler & Ike are at Swanage, where we went last year.

With love to all at home

Ever yours

W^m Osler.
