(W.O. to H.A.Lafleur)

1 West Franklin St.

1901 (?)

Dear Lafie

You will be sorry to hear that Clement is very ill. For three months he has been failing - feeling badly & getting winded easily. Six weeks ago Smith brought him here & I was shocked to find sclerotic arteries, an apex beat far outside the nipple &c. He has gone down steadily. He is now in Ward c. I think he would appreciate a line from you. He has at times the mental confusion common in these cases.

All are well here. Mrs. Osler & Ike send their love & say that you are expected to stay here in the spring. Send me any memoranda of corrections or suggestions you may have for a new edition of my vade - mecum

Love to the brethren

Yours sincerely

W^m Osler
