(W.O. to H.A.Lafleur)

CUS417/97.102

Baltimore, Dec. 7th, 1901

Dear Lafleur:-

Do come and stop with us at New Years. We shall be in Boston at Christmas, but I shall be back on Saturday, the 28th. Perhaps if you are in New York I would join you there. Let me know your plans.

Very interested to hear about your angina cases. Those vaso-motor forms with cyanosis are very remarkable. Compain's case belongs to an interesting group, in which these angina-like attacks are associated with the beginning of an aneurism of the aorta. I have had one or two other interesting cases.

Sincerely yours,

W^m Osler
