

Lawrence H. Hill, Clin. Soc. Med.
Regulation of Tuberculosis

Apr. 19 1901

CU5417/97.31

A first paper was given in the Balto.

for the regulation of tuberculosis

and also on the Chinese Society

also led with a sermon that this

has the fundamental the preliminary

from organized first against the disease

Tuberculosis a curable & preventable disease

while they depend on control of the host
his susceptibility of virus by

regulation, for consumption

setting former control intervention

may. at present the hosts of the host

Other admirable remarks in discussion

Med. Soc. Jour. Aug. 1901 p. 317-9
