305 Walnut Street,
Brookline, Mass.
August 19, 1922.

Miss M. C. Noyes,
Medical and Chirurgical Faculty of Maryland,
Baltimore, Maryland.

Dear Miss Noyes:

Do you recall when Osler gave before the Association of Medical Librarians his account of a visit to the Hunterian Library at Glasgow? The essay is merely inserted in the first number of the Bulletin without any reference as to when it was given. I presume that he may have read it at the meeting held in his house on the evening of May 25, 1901. If you have any recollection please let me know. Possibly he may have read it in the afternoon session at the Faculty Hall. Please give an answer below on this sheet for my convenience.

Very sincerely yours, *Mary Ann*

*Camp Sevon
Pilot Knob on Lake George*

My dear Mr. Cushing: -

My impression is that Mr. Osler wrote the account of his visit to the Hunterian Library as an independent thing, that it was not given at the Baltimore meeting. That afternoon was given over to reporting and the evening, after dinner, to a discussion of classification & arrangement of books in the libraries. This latter I remember perfectly but am hazy about the rest of the meeting. Perhaps Mr. Hurd may remember, as he was present and an editor of that early Bulletin. How goes the book. We are so hoping the Osler Collection will be out next spring & if so will have our Lib. Assoc. meeting in Montreal in Sept. of 1923. I can then have some of the members here in camp with me.

Very sincerely
Marcia C. Noyes
