Dear Mr. Fisher:-

Sorry not to have seen you the other day.

Welch's Festschrift will form Volume IX of the Johns Hopkins Hospital Reports. How do you get them? I hope they are sent.

The College Library was on the list for complimentary copies of my text book, which I sent to Appletons before the first of October. They distributed the first printing of 5000 in ten days, and did not send out the complimentary copies, so that my friends and the Libraries had to wait for the second printing, which I believe has just been completed.

Sincerely yours,

Wm Osler
