Dear Packard

I have the Review of Foster ready - twill be about 4 pp. I am called west this eve. & have a few introductory remarks but you could have it easily in time for the Jan No. if you wish it. You should have a good review of Paget's Life wh. is most charming.

*This case to the west appears to have been to attend a meeting in Ann Arbor where he addressed the students - and later in the month ~~at~~ the Roberts were joined with Mrs. Osler ~~at~~ the Boston Medical Library profited by this visit for Chodwick gave him to leave before a Sunday School and General Club which had been started then and he chose Thomas Anian as his topic but ~~at~~ several years were to pass before he put his Anian material into its final form - as a printed essay.*
