Dear Adami,

Allbutt has sent your paper for the R. to fill in - just what qualifications would you like to have entered? A. says that he will attend to the other signatures. Give me a brief summary - letter - of your earlier work - I can speak of most of the later - tho' you might indicate anything upon which you wish to lay special stress.

Allbutt says there is no hurry, but the sooner done the better. A. says Schafer, Sherrington, Fisher and Bradford most cordial, so I do hope it may go through next year.

Welch is back - delighted with his reception.

Love to little Mary Cantlie and to that blooming girl.

Yours

WM OSLER.
