(Letter to Sir Humphrey Rolleston)
(handwriting)

Pointe à pic
P 2

Sep. 14th 1902

Dear Rolleston

I have had a delightful summer and leave tomorrow for Montreal to attend the meeting of the Canada Medical Association. I had no word from Milroy - he may be dead or may have flown. So sorry Jones did not meet you, 'tis his loss. Stengel is a good fellow but you must not believe everything that Philadelphians tell you about Egerton Gorrick Davis who is an old friend of mine but a man without much reputation in Montreal & Philadelphia. I will tell you about him some day. It was dear old Dr. Bowditch who urged me to keep my reprints carefully. It is a good plan, in some ways, though as they accumulate one gets a bit shocked at the contrast between the quality & the quantity. I have sent a note of introduction to Pratt a very exceptional man who is just return from Kretz's Clinic. You will be pleased to meet him. Sorry to hear the boys have been ill. Revere has had a good summer. Kind remembrances to Mrs. Rolleston

Sincerely yours,

WM OSLER
