Dear Dr. Abbott,

So sorry to miss you today - but I was hard pushed & had some 10 calls to make & the new M.G.H. plans to look over. I am delighted with the prospects of the new Museum. It will be a great opportunity for you - a unique one in fact & I am sure you are 'up to' it. The men on the Faculty realize how splendid is the work you have done and your growing reputation is of great value to the school. It is wonderful how much you have accomplished, and it is a real pleasure to me to be of any service. Do let me know if I can ever be of use.

Many thanks for the photographs,

Yours sincerely.

Wm Osler
