No. 48  
(Letter to Dr. C.N.B. Camac)  
(typewritten)

BALTIMORE

Oct. 15th, 1903

Dear Camac:-

Glad you like the little Stevenson. I was in New York last Sunday, passing through from Montreal, but I had to hurry and catch a train. I have been very much driven since I got home.

I saw the Stickneys in Paris. They are wonderfully better, both of them, and I hear from the Conynghams that they have been in splendid condition. They are out in the country. They spoke of you on several occasions, and I think they quite regard you as their physician. We will go and call there together some time. He is a decent old chap.

Glad to hear of your plan of teaching, which I am sure will prove satisfactory. Mrs. Osler has not been at all well. She has had a recurrence of her asthmatic wheezing following the whooping-cough. I have given her your letter to read. I shall hope to see you before long.

Yes, I think Savill's is a very good book. He is a nice, good fellow, and has done some excellent work in London.

Love to Mrs. Camac and the baby.

Sincerely yours,

WM. OSLER.

(answer to question from me to answer patients inquiry)

P.S. My consultation fee in New York is \$500.
