(Letter to Dr. Knopf)

(typewritten)

BALTIMORE

Nov. 25th, 1903

Dear Dr. Knopf:

Excellent in every way! There is not a word to alter, and I
have nothing to suggest. It hits the nail fairly and squarely on the head.
I feel that we should organize a national committee which should be composed
of good men from each state. That we could do during the Baltimore meeting!
The Maryland Medical Journal is the one in which the letter should be published.

Sincerely yours,

WM. OSLER
