

Department of Human Anatomy,
University Museum,
Oxford.

Feb. 5 1905.

Dear Sir John,

You asked me last night what authority there was for the presentation of candidates for degrees in Med. and Surg. by the R.P.M. You will find it on p. 238 Examination Statutes 1904. on page 236, of the same book, in the first clause you will find the words "For degrees in the Superior Faculties-----by the professors stated below who must be previously communicated through the Society "to which the candidate belongs"

This explains, I think, why as Deputy, I have been approached by his College authorities.

Believe me,

Yours ever,

Arthur Thomson.
