4 PARK STREET: BOSTON

June 13, 1905.

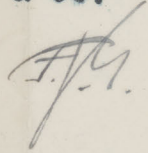

Dr. William Osler,
Oxford, England.

Dear Dr. Osler:

We are just in receipt of your favor of the 2nd inst., from Oxford, and are very glad to learn that we may look for the manuscript of your addresses during July, and possibly in the first half of the month. We shall be happy to make the royalty on the book a sliding one ~~as~~ the sales shall warrant, and, if agreeable to you, shall pay 12 1/2% on the first 2500 copies, and 15% after 5000 copies have been sold. Such copies as you may wish to present to friends in this country we will furnish from our edition, inserting your card or a complimentary presentation slip. Any copies which you may wish in England you can obtain from Messrs. Archibald Constable & Co., 16 James St., Haymarket, with whom we have recently made arrangements for the issue and sale of the more important of our new books in Great Britain, & who publish your "Science and Immortality."

Yours very truly,

Houghton, Mifflin & Co.
