Dear Shattuck:-

I have had some correspondence with a Dr. Walter Basil Wesselhoeft of Cambridge, who has some scheme on hand for testing different methods of treatment. He writes well and seems in earnest, and in this last letter mentions your name. I know nothing of him. I would like your opinion before I engage in any further correspondence. A man can never be judged by his letters.

Mrs. Osler is enjoying Colonel Lee's life so much. There are many instances in it which are quite familiar to her.

Love to the family, especially G.C.Jr.

Sincerely yours,

Wm. Osler
