Oxford.

April 17th, 1906.

Dear Packard:-

I am going on with that Heart-Block paper. I hope you will be able to have it before June. It will be about thirteen or fourteen pages. I wish you would ask the Leas not to cut off the Medical Chronicle from their exchange list. It is one of the best medical journals, and it happens to be the one which has been for the past ten or fifteen years persistently favorable to American medicine, constantly abstracting the best papers.

Sincerely yours,

W^m Osler
