Fr. W.O. to J. George Adami, 1906.

(Typewritten).

7, Norham Gardens,
Oxford.
May 8, 1906.

Dear Adami,

We had really a delightful visit to Marburg* (I was there at the time working at my books and in Aschoff's laboratory - went to Marburg in fact at Osler's suggestion as a quiet place in which to finish off my book on pathology. - J.G.A.) and we enjoyed the Congress immensely. Ehrlich was laid up the day we were at Frankfort, but his assistant took us all over the menagerie.

Did you see that study of Dorothy Reid's on Hodgkin's Disease, differentiating the histological changes quite sharply from tuberculosis of the lymph glands?

I will send Aschoff a list of the literature. I have been in Cambridge examining.

Sincerely yours,
WM OSLER.
