

(Maj. Gen. Fotheringham, Toronto)

(typewritten)

7, Norham Gardens, Oxford.

September 15, 1906.

Dear Fotheringham:

The book is a great credit not only to you and Keys but to the whole country. It is wonderful how much you have got in in such a short space. It is the sort of book that I should think the Government would reprint and use largely as a handbook of information in this country. I shall use it myself a great deal in a lecture I have to give this winter on Canada.

I have had most enthusiastic letters about the meeting which has evidently been an unqualified success.

It is too bad to hear that Parfitt has had a knock out.

Sincerely yours,

W^m Osler
