Letter from P.S. ALLEN.

Letter Script.

21 Sept. 1906.

Dear Sir,

Thank you for your kind letter of congratulation about Erasmus. I shall be very glad if I can feel that the Delegates have no reason to regret the undertaking, and that they are satisfied with the performance of it.

I am grateful to your letter for giving me an opportunity to express to you individually my thanks for the way in which the Delegates here encouraged my work, and especially for the decision made in February last to continue the edition beyond the first volume; which relieved me from the apprehension that my preparations for the whole undertaking might be in vain.

Your proposal for an edition of the Moriaë is v. interesting, and I can quite see that there may be room for a good English edition. A new feature might be to include the MS. notes written in the margin of the Holbein copy of Oswald Myconius, at whose suggestion the illustrations were undertaken. I have copied the more interesting of these from the original and as far as I know they have not been published hitherto.

Hoping to have the pleasure of calling upon you in Oxford before long.

Yours very truly,

P. S. Allen.

P.S. I hardly like to think of the Moriaë for myself, at least until I am further forward with the 2nd volume of the Letters.

Dear Professor Osler,

I have seen the Directors with reference to all the points you were good enough to go over with me on Saturday, and will answer them seriatim.

(1) Horder - proposed large book. They cordially agree with all you were good enough to say. I think there is no doubt that this text book will come to completion.

(2) System. They are very glad to hear that I hoped you will undertake the clinical part of the Central Nervous System. I wait to hear from Mott.

I have heard from Metschnikoff consenting to write, and saying nothing about his delay in replying.
Terms. I hope I gave you a clear enough idea about the general terms offered by the Publishers. I now enclose a draft copy of agreement that you may like to look through. You will see that it is a very fair document.

Advertisements. I will have no further difficulty with regard to advertisements; they will do entirely what you want.

Neuberger. I am getting this book, and will have a couple of pages translated here, and if I may, send them to for your approval. Milford did not want translations given to Miss Sollas, as she is already fully engaged for sometime to come with their own book.

With kind regards and many thanks.

Sincerely yours,

J. Keogh Murphy
