Dr. C. P. Howard.

Dear Campbell:-

I do not know of any special arrangement that has been made in Montreal about Muller's lecture. I think they expect him. I have written to Paterson today and to Roddick.

I am enclosing you letters to Marie and Raymond and to a little man called Crouzon who is a very good little fellow. You should go to the St. Louis two or three times, and you should see the work of Chantemesse. Crouzon could tell you where to find these fellows.

Sincerely yours,

W. Osler.
