

13 Norham Gardens, Oxford.

April 2nd, 1907.

Dear Jacobs;

I am delighted to hear that you have raised such a good sum for your Tuberculosis Association. What splendid work you have done for it! I should think the traveling exhibit with lectures and an additional tuberculosis nurse would be the two heavy items for expenditure.

That was indeed a terrible tragedy - the death of Mrs. James. I remember her quite well.

I wish I could return with you, but have an address at the Pathological Society on Friday the 10th in Philadelphia.

Love to Mrs. Jacobs.

Sincerely yours,

Wm. Osler.
