Dear Mr. Gates

Thanks for your letter, which I received last evening, just before leaving Montreal. I have asked the Dean of the Faculty to prepare a statement of the presearch work which has been carried on lately at Mc Gill in medicine. I think you will be surprised at its extent and variety. An endowment of \$500,000 would enable them to further extend and carry on this work. To rebuild a thoroughly modern fire-proof building will take all the moneys available & leave them hampered sadly for this advanced work, which they are really prepared to do, so far as the personel of the faculty is concerned. I am sending you a couple of books which may interest you to look over, and Vol. I of my new system of medicine

With kind regards

Sincerely yours

WM OSLER

I shall be at the Johns Hopkins Hospital all next week - I sail May 11th on the New York.
