To: Dr. George Adami

From W. O.

(Letter Script)

Craighleigh,
Rosedale.
(1907)

Dear Adami,

I have written Gates^{*} this a.m. and told him that the resources available will only suffice to put up a modern Fire-proof building and hamper the faculty in the research work which they had hoped to carry on and which as the memorandum sent indicates, had been varied and import. An endowment of \$500,000 would enable the School to continue this work.

Yours,

W. O.

Such a nice evening with you all. What a good group of young men! Thanks for everything Francis. Love to L.M.C.
