the finders. I hope you have got back in good form and ready for a hard winter's work. We had a good holiday at Bude though. Tommy did not catch many fish. The swimming was Al and he had golf lessons which interested him greatly. Everything here is still in the peaceful inter-term state - the *university* seniors never think of returning until the last moment. Not a soul dining at ch.ch. last eve! I am sending you No. 1 of the new Jr. which Garrod, *Roller* Roll and c. are editing. Gibson here and doing the work. He has just come back from Schmid, ^{or} where he has been doing *p.m.'s* and path. histology I have not seen the family this summer. Thanks for looking after poor Bill Who seems to have had a knock out. A.G. sails with the Miss Fern McCrae on the 19th. We shall be desolated. Love to the little Missus, Murial, the chicks and all.

Yours,

Wm. Osler.
