20th [Dec 1907]

Dear Mac:-

Cable this week from the Leas!! We are hurrying. Gibson has had a hard term and not many spare minutes, but now he is working hard and we hope to have the whole MS. ready within a fortnight. I have been examining in Cambridge and having a very jolly time.

I found yours of the 8th on my return. 1. Yes, I think *lymphatics* might come in with *circulation*. It would be a short section. The only difficulty would be separating the glands which would sometimes be involved. What does *Galen tubino*^{to} think? 2. Certainly the thymus should go in with the ductless in Volume VI. Is everything in for Volume IV? I see the proofs are coming fast.

Yours ever,

W. O. W.

Dear Harry,

Stupid of me not to
remember ask about the letter. of course
it is Dr. Welch. He and I were
living together then at 807 St Paul.

Best to you all in which

Amy Jones.

Yours

Thomas de Grey
