

(Typewritten)

(To Dr. Joseph H. Pratt)

13, Norham Gardens, Oxford.

June 9th, 1908.

Dear Pratt:

Yes, do report the tuberculosis work. It would be most interesting. What lunatics they seem to be in Germany on the question of fresh air. I am surprised that you should have found the same wretched conditions existing in Heil Anstalts. Senac at 16 marks is reasonable. It is a book well worth having. I have a fine copy. Let us know when you are coming over. Thanks for the information about the anatomical laboratory.

Sincerely yours,

W^m Osler
