Aug. 2nd, 1908.

I send you my Linacre lecture today. We are having the most wonderful summer - such sunshine. The garden is splendid. The hotel is in full swing. We have had such a nice set of old friends. Roddick and his wife left yesterday. We are off to Scotland in the motor on the 5th. I have just got back from the British Med. Asso. at Sheffield. Isaac is off fishing for a couple of days with some boys.

Love to Mrs. Jacobs,

Yours,

W.O.
