

No. 91
 (Letter to Dr. C.N.B. Camac)
 (handwriting)

(Sept) 25 (08)

13, NORHAM GARDENS,
 OXFORD

Dear Camac

No I am not in America! I thought I had written about our change of plans. I am taking a sabbatical year & Oct 1st I am off to Paris where I hope to spend 3 mos.- then on to Lyons Montpellier & the South Italian towns - & so south & possibly sail from Naples in way to get over in time for the Ass. of Am^y Phy.. I am looking forward to the trip with great pleasure. Tommy will remain here at school Mrs Osler will join me in Paris about the middle of Oct. I am so glad to hear that the bairn & Mrs. Camac are better - Murray Bay is a great tonic. book is a great success. I hope by this time you will have had my collected essays the Alabama Student - The Press issues it in N. Y. Did you get my Lithium? I am sure you will be interested in it - as you did not mention it there may have been an oversight. Miss Nichols and I got into a mess about the mailing list I have just finished revising my text book - not a heavy review as they are not breaking up the plates. Still there will be a good deal of new matter. I am glad to see the "Counsels & ..." as I heard it called, has reached a 4th impression. What a success it has had! It is a great disappointment not to be at the Congress. but this scheme did not mature until a few weeks ago

Love to the family

Sincerely yours

WM. OSLER
