(To Dr. A. B. Macallum)

Postmarked: Oxford, Sept. 26, 1908.

Prof. A. B. Macallum,
Physiological Laboratory,
Toronto University.

I have already sent a Servetus sheet to you at the Laboratory. Should you wish another I can (possibly) spare one, if all have not been distributed. I have sent them about to the Laboratories.

I hope you have had a good voyage. Love to the Wrights.
