

CUS 417/108.

(Typewritten)

(To Sir Robert Philip, Edinburgh)

13, Norham Gardens, Oxford,
Nov. 13th, 1909.

Dear Philip:

We all owe you a debt of gratitude for your great kindness in helping to make the Tuberculosis Meeting a success.

The Committee would like to have a memorandum as to your expenses as we cannot possibly think of letting you give us both your brains and purse. We have a guarantee fund.

The more I think of your suggestion for an annual meeting the better it pleases me; I do not see that a single objection could be raised. If you could have the first one in Edinburgh the success would be assured. The great difficulty is the question of the time; the B. M. A. meets the end of June. It would I believe be better to hold it in the summer, either the end of June or the beginning of July.

Sincerely yours,

W^m Osler
