Oxford.

Dear Pratt,

X  
Dee-lighted! I am so glad. This will give you what you deserve. I am writing to R. and congratulating her. When is the happy event? Why not this summer? and go to Ewelme for a post-~~hone~~ honeymoon? What a curious infection it is! I do not know of any proper psychological study of the mental state of a man a few weeks after acceptance. Plato hits it off - I wish James would study the condition. Of course you feel like a new being - never felt the same!

Love to you both & many blessings.

Yours ever

W Osler

Mrs. Osler sends love. Your letter came while we were at dinner last eve.
