Script (Letter)

Dear Archie,

When you go back to McGill keep an eye on a freshman called Harry Wright from Ottawa son of the late Dr. H. P. Wright whom your father knew well. Perhaps he could get rooms with you, in any case be kind to him and make him work.

I am sending you a German English medical dictionary and the new Neurology section of Quain's Anatomy which will stretch your pia mater.

Yours sincerely,  
William Osler.
