Dear Mac:-

What a pity. ----should have had more sense. It would be more satisfactory to write it yourself. If I had not this Tuberculosis gathering next week here, every day! I would do it myself but I believe you would do it more rapidly. I shall wire you tonight. I wish you would get a cable address, you could arrange it with the telegraph office registrar: McCrae, Baltimore. It is too bad that the neurologs are giving trouble.

Love to Amy. Comfort poor Tom Fatcher!

Yours,

W. O.
