

HAROLD BOWDITCH, M. D.  
520 COMMONWEALTH AVENUE  
BOSTON

COPY

Dear Bowditch,

Dec. 10th, 09.

I send you today a lecture on Servetus which I think will be of interest to you. Fleischer of the Deutsche Revue asked to have it, and I send you the German copy also. He was a very interesting old character and really made a valuable contribution to physiology.

I hope you are keeping pretty well. I have heard of you occasionally from friends. Lauder Brunton was asking after you last week.

Give my love to the family, not forgetting the medical student and his Neacra.

Sincerely yours,

(signed) W<sup>m</sup> Osler

Dear Dr. Cushing:-

April 8, 1920.

The above is an accurate copy - mistake in spelling included! - of another Osler letter which I turned up last night. If you want the original I shall be glad to send it.

Yours sincerely,

*Harold Bowditch*

*(On paper headed, in print, "From the Regius Professor of Medicine, Oxford".)*
