

Postal card.

Jan. 11th, 1910.

I called today at Maggs & found they had sent out the G - H - cane on approval. It must be a beautiful book, folio size, but the price seems steep.

Many thanks for the electric light, which will be useful on the motor.

Have we the Leonards Fasciculas of Anatomy in the Frick Library?

'Tis a wonderful work. He was the first modern dissector.

Love to Mrs. Jacobs. Am glad Jim Frick is better.

W.O.
