Dear Shepherd,

When in Montreal in June Father Wood spoke to me of a memorial window to Dr. Wright, and I told him that I would be very glad indeed to subscribe to it. I forget whether I mentioned the matter to you; I did to Roddick and Gardner. French has written saying that the window has come! Of course there are not many left in the Faculty who remember the old man. Let me know if there is anybody to whom I could write.

I hope the Mills pension scheme will go through, it would be a great matter to have a new man starting the Laboratory, and Mills is evidently not fit for much. He deserves recognition as he has worked hard at a very low salary.

Love to Dorothy and Cecil.

Sincerely yours,

W^m Osler

P.S. I am sending to the Library a very interesting photograph, which Payne has just given me, of Banister's anatomical lecture, from the painting in the William Hunter Library.
