

From the Regius Professor of Medicine, Oxford

March 31st, 10.

Mona
Dear Dr. Abbott,

So glad you got the book in time, and so glad to hear that the Museum progresses, it will be delightful to go over it with you in the autumn.

I doubt very much if I could give you anything in time for the May meeting, I have got a great deal on hand. Very gratifying to hear of the success of the Association.

Sincerely yours,

W^m Osler

Lepuska

2.
P.S. To my surprise I find my copy of Lipuiska here! I told my Fräulein to send it to you. She must have overlooked it - poor girl - bedevilled as she has been with my angina lectures. I am glad you have got the other copies.
