

13 Norham Gardens,
April 15th, 10.

Dear Jacobs:-

I hope you and Mrs. Jacobs have had a good voyage. I wish you and Mrs. Jacobs could come on here and see how beautiful the country is beginning to look.

I shall not go to Wiesbaden, Mrs. Osler does not return until the 19th, and the meeting begins on the 18th, so that I would have to leave tomorrow. I shall probably join you in Paris later for a week.

It was delightful to get the account of the Welch dinner. What a splendid occasion! There is nowhere in the world where such things are managed so well. Mrs. Osler writes me that she was delighted with the bronze ^[for Osler base]. I have not half thanked you and Mrs. Jacobs for your kindness in the matter.

Revere has been off ~~fishing~~ in Wales for a week, and had some very good fishing. Your rod has been a great delight to him. He went with one of the crack salmon fishers in England so that he is getting some good lessons.

You will see by this paper heading that we have an annual meeting in Edinburgh, of which I am the President.

We had an interesting conference yesterday, young Waldorf Astor has undertaken to finance an active anti-tuberculosis campaign.

With love to Mrs. Jacobs,

Sincerely yours,

W^m Osler.

P.S. Say nothing about Waldorf Astor please.
