

CUS 417/109.66

From the Regius Professor of Medicine, Oxford.

April 27th, 10.

Dear Pratt,

What an extraordinary thing for you to have measles again, I hope not severely. I had a furious attack when about 20.

Very satisfactory to hear that your Tuberculosis plan is progressing. Much depends on the personality of the individual in charge.

With love to the 'Light of your life' .

Ever yours,

W<sup>m</sup> Osler
