

From the Regius Professor of Medicine, Oxford.

April 27th, 1901

Dear Jacobs,

Congratulations on the Eudowood report, which is very satisfactory. You must be very pleased at the way the tuberculosis work has turned out in Maryland, and we all feel that the success of it has been due so much to your tactful management.

We are arranging to put in a week in Paris sometime when you are there. Let me have your dates; we shall probably be there about the 4th of June, I have to be in Leeds on the 11th, and our examinations begin the next week.

Love to Mrs. Jacobs,

Sincerely yours,

W^m Osler.
