

13, Norham Gardens, Oxford.

CUS 417/110.37

Sept. 17th, 1910.

Dr. C. F. Howard.

Dear Campbell:

We got back safely after a very good trip. We had a cable the day before yesterday about Palmer Howard Fletcher, which was very good news.

You will have a hard time I know to get settled. I have written today to Billings, Herrick, Edwards, Favill and Hektoen of Chicago so that you can write or call upon any one of them, they will know about you. Grace has written to the Perkins of Burlington who are ddlightful people. Your experience with the tuberculosis work in Montreal will be most helpful, you could spend a little time stumping the country in the cause.

I will have the lantern slides copied and will send the books, they will have to go by freight, I am afraid the parcel will be too big for the Smithsonian.

Sincerely yours,

Wm. Osler.
