Dear Mackall

So sorry not to have seen you again but I fell on evil days & a heavy cold kept me up & down for two weeks & I did not get to town. The R.S. article has been fully answered. The prospectus of the Goethe book is most attractive. I will give the Press your memo on Robinson. Let me know of any interesting medical items that catch your eye.- 16th century particularly. Thanks for sending on the wants.

I must come over in the spring & see Jena & Weimar.

Yours ever

W^m Osler
