

(typewritten)

(To Dr. Laurason Brown, Saranac Lake)

13 Norham Gardens, Oxford,
Nov. 9th, 1910.

Dear Brown:

I am so delighted to hear that Trudeau is better, and that he should have gone off with his gun is good news indeed.

You will be greatly relieved to be free from your appendix, but I dare say it was a very unpleasant experience all the same.

I hear rumours sometimes that things are not quite smooth at the J.H.H. but it is a difficult situation, and on the whole I think Barker has done remarkable well. Thayer, who might have made things very difficult has been a trump, and has been most conciliatory. I am afraid it is some of the younger men who are a bit (blank left). If you get a chance, say a word to Welch, whose benign influence is all powerful.

With greetings to all your staff.

Sincerely yours,

Wm Osler.
